Singapore-based strategic and international trading platform connecting capital, industry and markets.

INTERNATIONAL TRADE · INDUSTRIAL SOLUTIONS

September 2026

SINGAPORE PLATFORM

A central platform for cross border growth

Built to coordinate international trade, relationships, financing and project development from Singapore.

Metro Premium Holdings Pte. Ltd. is the Singapore-based strategic and international trading platform of Metro Premium Group. The company strengthens the group's international coordination while remaining connected to practical operating experience in steel sourcing, trading, logistics and industrial customer development.

GROUP FOOTPRINT

A connected footprint across four markets

MPH is positioned as the Singapore strategic headquarters and international trading platform within a developing group structure.

The Singapore platform connects operating experience with international markets, financing relationships, partners and industrial opportunities.

GROUP FOOTPRINT

Five roles under one disciplined platform

MPH brings trade, partnerships, financing coordination, projects and group strategy into one coordinated Singapore platform.

The role is not limited to buying and selling; it is about linking credible counterparties, risk discipline and cross-border execution.

CORE CAPABILITIES

Practical capabilities for international trade

A concise one-page view of the group-level capabilities MPH can present to customers, suppliers, banks and partners.

— Global Sourcing

Supplier identification, sourcing and purchasing coordination

— Industrial materials

Ferrous and selected non-ferrous products matched to buyer requirements.

— Commercial coordination

Buyer engagement, contract coordination and transaction structure.

— Inspection & documentation

Support for specification review, inspection flow and trade documents.

— Logistics planning

Freight, warehousing and delivery planning with relevant partners.

— Finance & risk coordination

Commercial-bank, trade-finance and trade-credit insurance engagement.

— Project development

Market assessment, feasibility coordination and partner planning.

Capability statement: connect requirements, credible sources, commercial terms, risk support and delivery planning.

INDUSTRIAL MATERIALS

Materials portfolio matched to requirements

MPH presents supply capability through Metro Premium Steel and approved international supplier relationships.

Industries Served

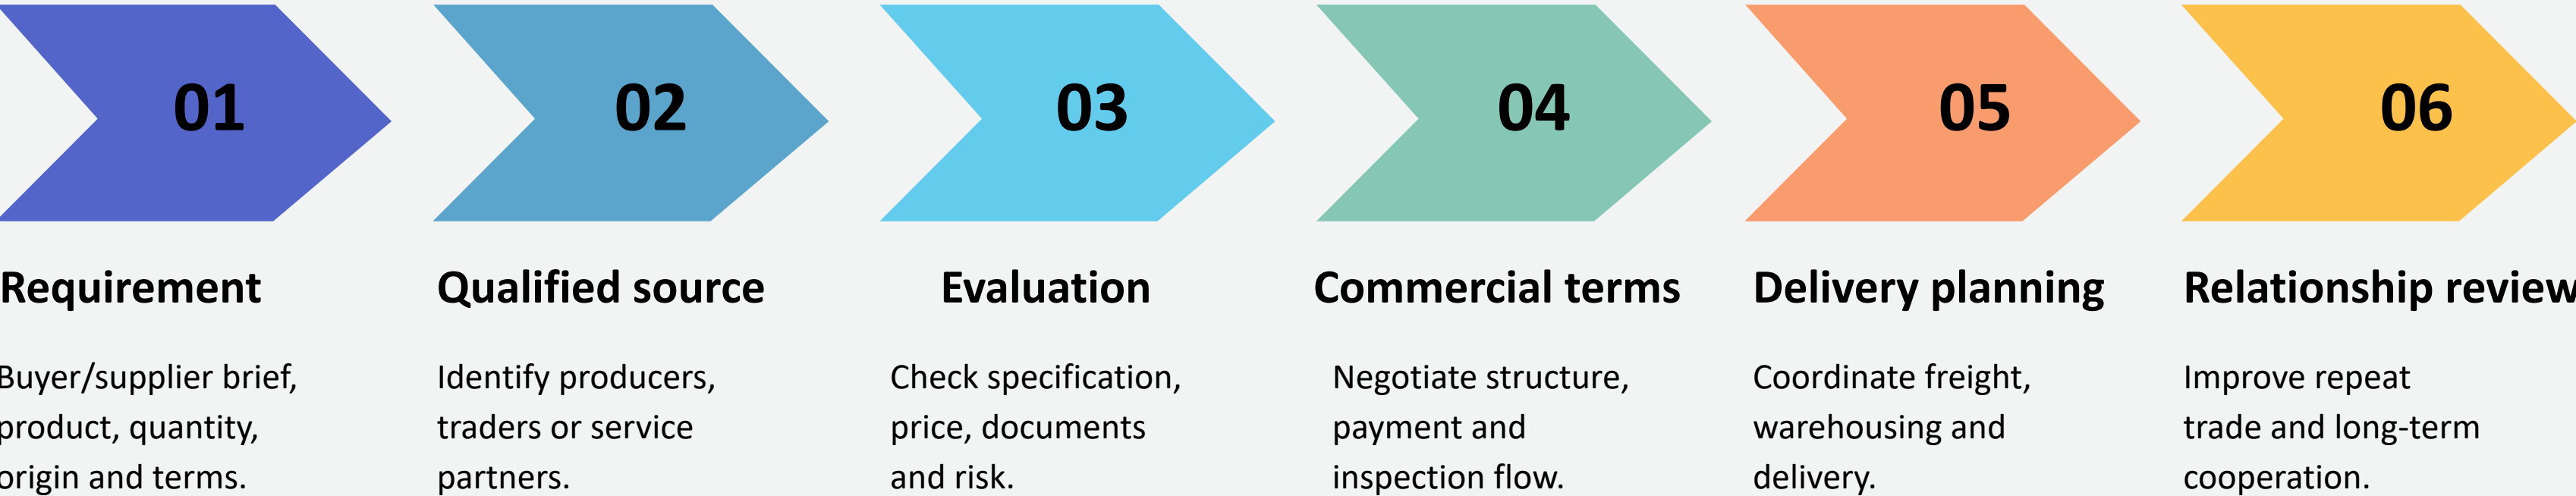

Manufacturing • Construction • Roofing & cladding • Fabrication • Appliances • Marine and heavy engineering

HOW WE WORK

From requirement to coordinated execution

A practical operating model that shows MPH as a coordinator of credible trade, risk and delivery processes.

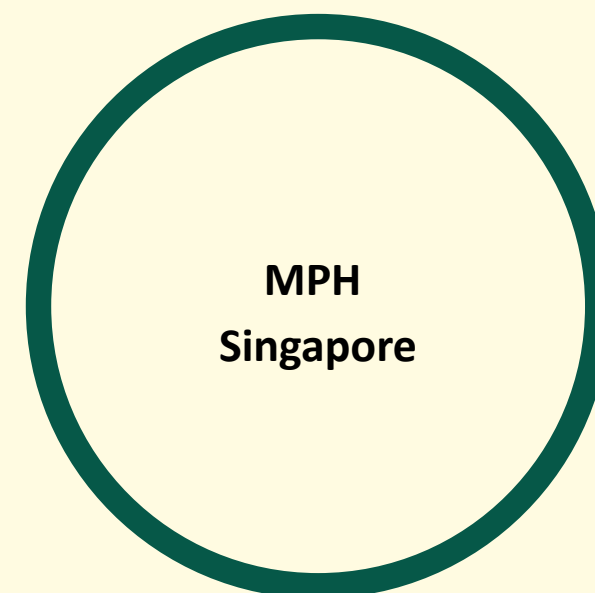

Every transaction remains subject to availability, specification, origin, quantity, inspection requirements, price and delivery confirmation.

PARTNERSHIP ECOSYSTEM

Engaging credible partners across the transaction chain

MPH's value is strongest when it can link qualified counterparties, clear documentation and a disciplined commercial process.

Manufacturers & mills

Industrial buyers

Distributors

Technology & engineering

Logistics partners

Public agencies & advisers

Banks & insurers

VISION & MISSION

Our guiding direction as an internationally connected industrial group

Vision

To become a trusted and internationally connected industrial group linking markets, industry, capital, technology and strategic partnerships across regions.

Mission

To create sustainable long-term value through reliable international trade, responsible partnerships, disciplined investment and competitive industrial development.

Strategic Priorities

- Strengthen Singapore platform
- Expand reliable global relationships
- Develop financing & risk capacity
- Evaluate industrial opportunities

Public positioning should emphasise sourcing, coordination, partnerships and responsible execution.
